

BARGAINING UPDATE

New Agreement Ratified

Your Employer recently provided your local Labour Management Committee with an offer for a new Collective Agreement, which we took to the membership for a vote. The ballots have been tallied and the Employer's offer has been accepted by 94% of the membership.

This agreement achieves a very significant increase in pay for our membership and recognizes the value of the important work done by our members.

Your Labour Management Committee thanks you for your support of their efforts in reaching this agreement and wishes you a safe and enjoyable summer.
